

Our Mission

Engage, inspire, and mentor young performers and producers to create compelling live radio (and audio for other media); gathering sound, music, listener participation, all sorts of events from out in the wide world.

Gypsy Dancer

Everywhere the music comes alive

We're Everywhere

- On-location, live-to-air music broadcasts
- Live disc jockey events, news and public affairs

Fields of musical dreams!

Meet the *Gypsy Dancer*

Bio-diesel powered short bus beautifully converted into a unique broadcast and music production mobile unit. Internal lighting is extreme low-wattage.

Easy Parking 23 Feet Long (average car length + 3 feet)

Inside the *Gypsy Dancer*

Separate workstations

Multi-channel music mixing and radio program production, two separate activities, requiring separate, different, and intense operator focus.

Radio & DJ production

Yamaha board

Inside the *Gypsy Dancer*

Guest interview desk

Control-Room isolation from venue

Hospitality area with comfortable couch

Our Speciality

Our specialty is mixing music live in real-time at a quality level equal to that expected with multi-track recording and lengthy studio mix-down.

M7CL - Stage Monitor

Live Broadcast

Mixing “Live from Scullers” on air 100,000 Watt WGBH, Boston

Emerson College’s Dan Hockstein

Berklee College of Music’s Justin Vining

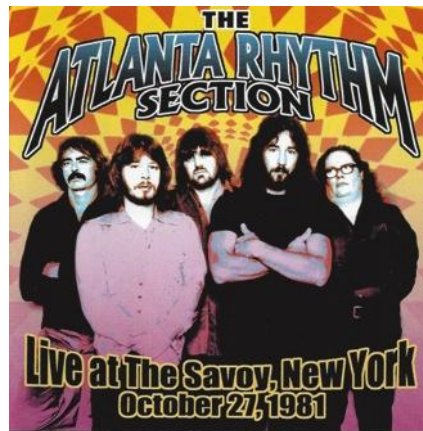

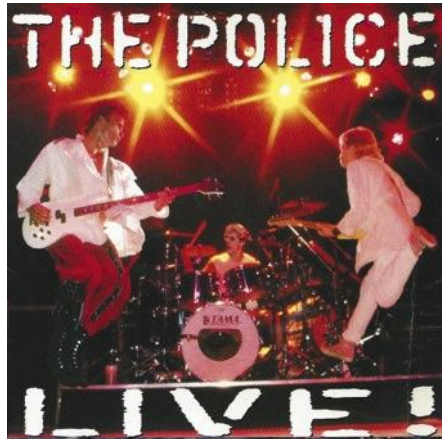

... and Furthermore

A number of our live-to-air broadcasts have later been released as **commercial phonograph and CD records**, including: The Police, The Clash, Nils Lofgrin, The Hollies, and singles by U2 and The Talking Heads.

Since the 1980s many young producers, who started with us, have gone on to very **successful careers** at major radio, television, and film companies.

locomote media

Live broadcasts.

Streaming.

Recording.

Music production for your band, your business, church or any organization. For state-of-the-art, on-location audio and video production, call Sam Kopper at **781-820-0909**, or email at **sam@locomotemedia.com**.
